

[WeRateDogs](#) is a Twitter account used to rate dogs. They use images of people's dogs and they give it a rating along with a humorous caption. They also claim to be the only source for professional Dog Ratings for Instagram and Facebook. They have 9M followers as of May, 2021.

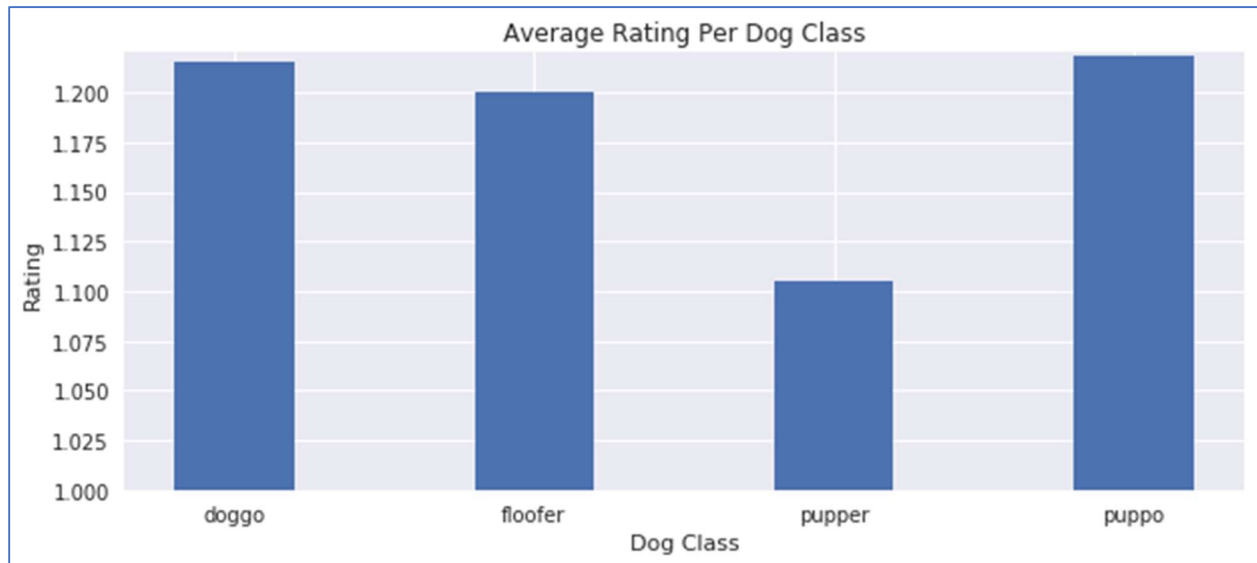

Following chart shows their popularity based on the number of retweets and compared with Favorite counts on a weekly basis.

Based on their popularity with dog ratings, it is evident that the following Dog names are popular as shown in the below chart :

Their data also shows that 'puppers' are low in ratings compared to other Stages of the dogs (i.e., vs Doggo, Floofer and Puppo) , as shown below.

It shows that Golden Retriever is the most favored dog among the available breeds.
